

Why Flexible Packaging?

- ✓ Minimal weight
- ✓ Efficient transportation
- ✓ Flexibility protects product, decreases breakage
- ✓ Customizable moisture and air permeability
- ✓ Printing possibilities
- ✓ Low environmental impact

3-5% growth/year

\$300 B by 2024

What is Recycled

9.1% of Plastic

Morris Packaging's Goal

Morris Packaging's goal is sustainability.

Morris Packaging is committed to deliver and develop sound and sustainable flexible packaging solutions.

All the choices we pursue and all the actions we make today will affect everything in the future.

Committed to
deliver and
develop sound
and
sustainable
flexible
packaging
solutions.

Responsible Sourcing

We partner with local suppliers domestically producing raw materials with the same sustainability vision.

- ▶ Supplier Accreditations:
 - ▶ Sustainable Packaging Coalition (SPC)
 - ▶ Association of Plastic Recyclers (APR)
 - ▶ Corporate Social Responsibility Program (ISO 26000)
 - ▶ Films confirmed as acceptable for the How2Recycle Program.
 - ▶ Utilization of films with a history of recognized sustainability achievements in Flexible Packaging.

Green Manufacturing

The term green manufacturing can be looked at in two ways:

1. The manufacturing of “green” products, particularly those used in renewable energy systems and clean technology equipment of all kinds.
2. The “greening” of manufacturing — reducing pollution and waste by minimizing natural resource use, recycling and reusing what was considered waste, and reducing emissions.

Green Manufacturing Practices

Solventless laminations – eliminating hazardous waste
Equipment does not use any natural gas – greatly reducing VOC's
Newest high-efficiency equipment in the industry with Eco mode
Oil-free compressors
Greener transportation models

Morris Packaging reclaims contaminated solvent from printing to be reused further eliminating hazardous waste

Supplies as pallets and cores are reused

Our plants recycle all plant scrap

Sustainability Options

Reduce

Shelf Life Stabilization

Superior barrier structures to produce longer sustainable product life

Right Size

Make sure the impression is correct for amount of product – no extra material

Source Reduce

Less material is used to reduce carbon footprint of the entire supply chain without sacrificing product integrity

Sustainability Options

Reuse

Renewable Sources

Alternative resins - sugarcane or corn-based

Recycled Resins

30% Recycled resins used in the final structure

Sustainability Options Recycle

Recyclable Material

Store ready drop off 100% recyclable resins

Compostable

Certified compostable material; able to be used up to a 2# package

FPA 2020 Silver Award - Sustainability

The award seal is a dark blue square with a gold circular border. Inside the circle, the text "Best Packaging Supplier 2020" is written in a bold, gold, sans-serif font. The background of the seal is decorated with a pattern of small gold dots arranged in concentric circles.

2020**

Awarded for Holistic Sustainability
by
Pet Sustainability Coalition

Morris Packaging Accreditation

SQF Food Safety Code for Manufacture of Food Packaging and Quality Edition 8.1

Certification provides assurance that a product, process or service complies with regulatory, international and scientifically proven standards for safety.

Morris Packaging is a nationally certified and recognized MBE by the National Minority Business Council (NMBC).

We recognize the importance and benefits of a truly inclusive workforce.

Today's corporations are finding there are many economical benefits to sourcing minority business enterprises, including federal and state tax incentives.

Morris Packaging Accreditation cont'd.

Member of the Sustainable Packaging Coalition (SPC)

SPC is a membership-based organization driving the industry to make packaging sustainable.

We have teamed up with founders of the Pet Sustainability Coalition (PSC).

PSC is striving to bring sustainability to the pet industry.

Voted Best Packaging Supplier 2020-2021

Summary

We are committed to reducing Morris Packaging's impact on the planet and conserving our resources.

Morris Packaging is dedicated to making a difference.

We need to make sound decisions at the present in order to avoid limiting the choices of generations to come.
