Sustainability Through Efficiency

Vision for the Future

Scope 3 Emissions Recorded

Always Open to Support New Growth

Continued Advancement of Recycle Ready Materials Thru Use and Function

Superior Materials

Film Advancements in Machineability and Fit for Use in Recycle Ready Materials

Utilizing Resin Technologies to Supply Lighter Weight Materials with Superior Performance

Not Intentionally Added PFAS

State-of-the-Art Capabilities

PCMC Wide Web Flexo Presses

Vision Detect Management - AVT

X Rite Color Management

Latest Pre-Press Technologies

Totani, B&B, Hudson Sharp Converting Lines

Multiple Bag Styles and Sizes

Green Manufacturing Practices

Solventless laminations – eliminating hazardous waste
Presses do not use any natural gas – greatly reducing VOC's
Newest high-efficiency equipment in the industry

Morris Packaging reclaims contaminated solvent from printing to be reused, further eliminating hazardous waste.

Film rolls produce rope to make beds for impoverished countries.
Cores and cardboard are recycled into corner protectors, recycled boxes, and commercial toweling.
Strapping is recycled into a variety of new plastics including bottles and frisbees.

Scope 1, 2 & 3 Emissions are collected and benchmarked.
All packaging is NIA (Not Intentionally Added) PFAS.

Morris Packaging Accreditation

Morris Packaging is a nationally certified and recognized MBE.
